

Newsletter - July 2006

A goiter and nodules shared a large proportion among thyroid diseases. We hope to lead thyroid patients through an effective way to heal and improve thyroid symptoms on neck quick.

HealthGuard developed an extended series of thyroid remedy named "GoiPlas"; to help hard and large goiter and nodule patients. We are launching GoiPlas and take this opportunity kindly inform thyroid patients as below:

For further inquiry and if interested to purchase treatment pack, please [contact us](#) with subject: GoiPlas.

GoiPlas - Extended advanced series of T18 treatment

GoiPlas is an adhesive plaster applies on neck (thyroid gland area) to target minimize hard and large goiter, lump and nodules . GoiPlas is an extended series of HealthGuard T18 treatment.

Ingredient: All natural Chinese herbs.

Also contain: Sanchi (Radix Notoginseng), Dragon's Blood (Resina Draconis), Chinese Eaglewood (Lignum Aquilariae Resinatum), Musk (Moschus).

The plaster is placed on a cotton patch to assure no allergic problem.

Efficacy:

GoiPlas passes through skin and takes effect directly on the thyroid gland. It serves best result simultaneously with HealthGuard T18 thyroid remedy; to minimize hard goiter, lump and nodules.

Application:

1. Heat GoiPlas with 2cm away from candle fire or gas fire . Wait for around one minute until GoiPlas is soft and warm (est. at 40 Celsius degree).
2. Cover on lump, goiter or nodules area 24 hours/ day for consecutive 6-day application. For work reason or patients may feel sensitive on plasters (herbs), minimum time is 6-8 hours/day*.
3. Use warm water to rinse off applied area after gently takes off GoiPlas.
4. Wrap well the used GoiPlas. Put into refrigerator for next day usage. Repeat from Step 1 again for the GoiPlas treatment.

**For 6-8 hours / day application, each GoiPlas can be continuously used for 10 days*

Caution:

1. If any irritation and discomfort found on applied area, take GoiPlas off and rinse with warm water. Please re-apply GoiPlas after 3 days to assure all irritation cleared.
2. For external use only, apply on thyroid gland neck area.
3. Keep storage area clean and cool.
4. Do not use GoiPlas when fever.
5. Do not use GoiPlas when sweating.
